

Keep yourself and your pets clean! Be sure to wash your hands after you play and <u>always</u> before you eat.

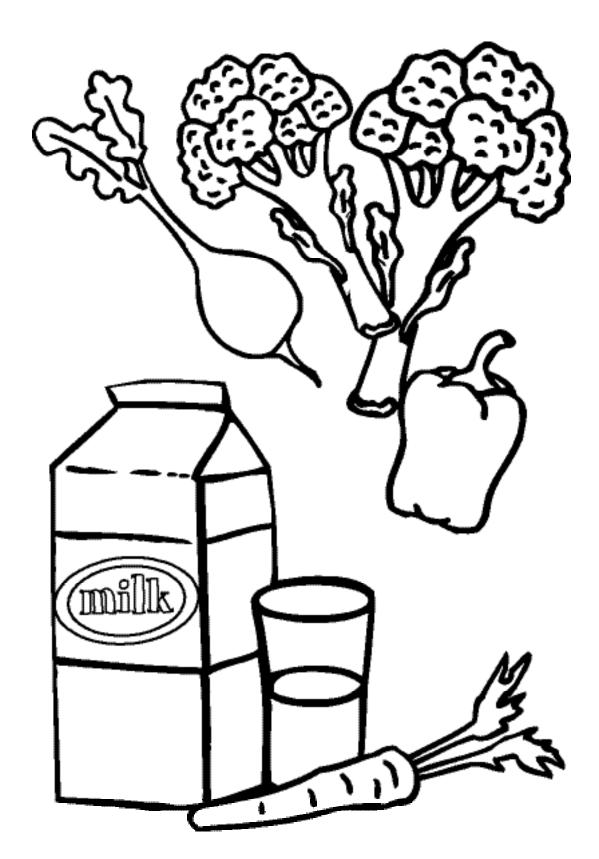

Help to keep the house clean! Leave dirty shoes at the door, and use a damp mop to clean the floors and window sills. Eat your vegetables, and be sure to have three servings of dairy a day! They help keep your body strong.

Be sure to visit Leadie Eddie 🥰 and his friends for a lead test and see your doctor for regular check-ups!

Gateway Maternal and Health Consortium is a nonprofit organization of health care professionals and consumers concerned about the health and well-being of mothers, infants, children and adolescents. The consotium's mission is to:

::

Serve the communities in our service area by extending and connecting the work of our member health care providers to the community.

::

Foster collaboration across traditional service sector boundaries.

...

Intensify efforts towards the prevention of poor maternal and child health outcomes through addressing common risk factors.

::

Increase the effectiveness of existing health care and social service organizations.

::

Develop social capital in our communities—connect people to resources, institutions and each other.

::

Promote a greater understanding of health care issues framed in the context of individual development within the socio-cultural environment
